[A eulogy for RadioShack, the panicked and half-dead retail empire](#)

This may very well be RadioShack's final holiday season. Jon, a former employee, looks back on a strange, craven, five thousand-fingered strip-mall monster from a forgotten age.

Arthur, world's first satellite communication dish, reborn

Big data? Pah. Arthur is big hardware. He weighs in at 1,118 tonnes, has a diameter of 25.9 metres and is 52 years old. From his home, a high plateau on Cornwall's remote Lizard peninsula – as far south as you can go on the island of Great Britain without falling off – he has played his part in Space Age history, appropriate given he resembles one of its rockets in scale and riveting style.

How to

Building a project box from scratch

This is a video showing how to build a custom sized project box out of a thin aluminum sheet and some aluminum angle bar.

[ToddFun.com](#)

Rebuilding CDE TRA-4 rotor

After breaking the rotor down I'm going to re-grease it and clean out all of the internal parts.

[N5WXW](#)

And finally...

Armchair ham radio at it's best

I came up with a nice solution to bringing ham radio to the La-Z-Boy chair.
